A diagram showing a red arrow pointing from the text 'Les Fenêtres' to the text 'Vers Chemillé'.

www.elsevier.com/locate/actamat

■
Inventaire / Si

A diagram of a blood vessel with a red blood cell passing through a constriction. The vessel is shown in cross-section, with a vertical line representing the axis of the vessel. The red blood cell is depicted as a red, biconcave disc. The constriction is represented by a narrowing of the vessel's lumen, which is highlighted with a yellow oval. The surrounding tissue is shown in pink.

A map of the 'Haut Parc' area. It shows a green 'Aire de jeux' (playground) and a blue 'Étang communal' (communal pond). A yellow dashed line outlines the 'Aire de jeux'. A yellow arrow points from the 'Aire de jeux' towards the 'Étang communal'. The map includes labels for 'Route de la Salle de Vihi', 'All. de la Fontaine', 'Stade', 'Rue de l'Eau', and 'u Chesneau'.

A diagram illustrating a path or trajectory. A horizontal line represents a baseline. A blue dot is positioned above the line on the left. A green blob is positioned below the line on the right. A thick orange line starts at the blue dot, curves upwards and to the right, then turns sharply downwards and to the right, ending at a point below the horizontal line. The number 3 is located in the bottom right corner of the image.

A 2D coordinate system with a horizontal x-axis and a vertical y-axis intersecting at the origin. The first quadrant (top-right) is shaded in blue. The bottom-left quadrant contains a yellow shaded region bounded by the x-axis, the y-axis, and a curve that starts at the origin and curves upwards and to the right, ending at a point on the y-axis. The rest of the plane is white.

A map showing a river's course in a green-shaded area. The river flows generally eastward, with a significant bend to the north near the center. A green polygon, representing a land parcel, is located in the lower-left portion of the green area. The text "Le Lys" is written in blue in the center of this polygon. A vertical blue line is present on the left side of the map.
